

### *Workshop Human Engineering*

*Do you want to achieve more in your career? During this workshop given by Saskia Slotboom, you learn more about your strengths and qualities. She gives you tools and tips to leave a convincing and lasting impression in network meetings, interviews and job performance reviews.*

*Saskia is an entrepreneur who coaches and trains higher educated (technical) professionals. She helps these engineers and experts to increase their performance in networking, (project)management, and advisory skills. This way they can achieve more success, participate in bigger and more complex projects and take big career steps.*

*As an engineer in building technology (TU Delft) and project manager at the Government Buildings Agency Saskia gained a lot of experience in working in complex building projects. She gained insight in what makes project teams and participants perform well, and what doesn't.*

*Now she loves to share these insights as a trainer and coach.*

*Slotboom Coaching offers online courses and programs made to measure, for individuals and groups. For more information, see Saskia's website: [www.saskiaslotboom.nl](http://www.saskiaslotboom.nl)*
